*NOTICE: The information contained in this Request for Proposal is confidential and proprietary to HealthPulse Solutions. By accepting this document, prospective vendors agree to hold all technical architectures, commercial terms, and proprietary data in strict confidence under non-disclosure provisions.*

## 1. Program Overview

HealthPulse Solutions is a healthcare network serving 42 hospitals and over 350 outpatient clinics. To expand access to specialized care, we are issuing this RFP for an enterprise-wide Telehealth and EHR Interoperability Hub.

## 2. Key Capabilities

- HL7 FHIR Interoperability: Bi-directional real-time record exchange with Epic Systems, Oracle Cerner, and legacy MEDITECH EHRs.
- WebRTC Patient Consultations: Low-bandwidth resilient video consults with end-to-end encryption (AES-256) and automated in-consult clinical transcription.
- Patient Identity Verification: Biometric and photo ID verification with insurance eligibility checks in real-time.
- Multi-Language Support: Real-time translation supporting 18 languages with medical terminology fidelity.

## 3. Privacy, Compliance & Security

- Full HIPAA and HITECH Act compliance with signed Business Associate Agreement (BAA).
- Strict prohibition against using protected health information (PHI) for training external AI models.
- SOC 2 Type II and HITRUST CSF certification required.

## 4. Submission Deadlines

- Submissions close: November 25, 2026 to james.wilson@healthpulse.org.
- Clinical validation and vendor demonstrations scheduled for December 2026.
