

REQUEST FOR PROPOSAL (RFP)

Multi-Tenant Kubernetes Security & Zero-Trust Service Mesh

Cloud-native workload runtime security, Istio service mesh, and GitOps policy enforcement

ISSUING ORGANIZATION & KEY DETAILS

Issuing Entity:	Nexus Technologies (nexustech.io)
Primary Contact:	Elena Rostova, Head of Infrastructure & DevOps
Direct Inquiries:	elena.rostova@nexustech.io
Publication Date:	October 2026
Estimated Contract Value:	\$2,800,000 USD
Procurement Protocol:	Competitive Sealed Proposal (Phase-Gate Evaluation)

NOTICE: The information contained in this Request for Proposal is confidential and proprietary to Nexus Technologies. By accepting this document, prospective vendors agree to hold all technical architectures, commercial terms, and proprietary data in strict confidence under non-disclosure provisions.

1. Background & Scope

Nexus Technologies delivers high-concurrency developer tooling and API platforms. Our production fleet spans 60+ Kubernetes clusters hosting thousands of microservices.

This RFP seeks a specialized partner to design and deploy an enterprise-wide Zero-Trust Service Mesh and Container Runtime Security framework.

2. Technical Specifications

- Istio Service Mesh: Universal mutual TLS (mTLS), fine-grained Layer 7 authorization policies, and automated certificate rotation.
- Runtime Threat Detection: eBPF-powered continuous security monitoring (Falco / Cilium Tetragon) with zero overhead on pod CPU.
- GitOps Policy Enforcement: Open Policy Agent (OPA) / Kyverno gatekeeper admission controllers integrated into GitHub Actions and ArgoCD.
- Vulnerability Lifecycle: Automatic container image vulnerability remediation and SBOM (Software Bill of Materials) tracking.

3. Compliance & Performance KPIs

- Latency Overhead: Added service mesh latency must not exceed 1.5ms at p99.
- Compliance: Full audit mapping for SOC 2 Type II, PCI-DSS Level 1, and CIS Kubernetes Benchmarks.

4. Proposal Deadlines

- Proposals due: December 10, 2026 to elena.rostova@nexustech.io.
- Expected kickoff: January 15, 2027 with a 9-month delivery timetable.
