

REQUEST FOR PROPOSAL (RFP)

AI Predictive Fleet Routing & Telematics Optimization System

Real-time dispatch optimization, fuel reduction algorithms, and dynamic driver workflow

ISSUING ORGANIZATION & KEY DETAILS

Issuing Entity:	Vanguard Logistics (vanguardlogistics.com)
Primary Contact:	Robert Taylor, Director of Supply Chain Technology
Direct Inquiries:	robert.taylor@vanguardlogistics.com
Publication Date:	October 2026
Estimated Contract Value:	\$3,400,000 USD
Procurement Protocol:	Competitive Sealed Proposal (Phase-Gate Evaluation)

NOTICE: The information contained in this Request for Proposal is confidential and proprietary to Vanguard Logistics. By accepting this document, prospective vendors agree to hold all technical architectures, commercial terms, and proprietary data in strict confidence under non-disclosure provisions.

1. Executive Summary

Vanguard Logistics operates a North American fleet of 4,200 long-haul tractor-trailers and urban delivery vehicles. Fuel and idle times represent our primary variable operating expenditures.

We are procuring a next-generation AI Dynamic Dispatch and Fleet Routing System to optimize carrier routes in real time based on weather, traffic, and dock scheduling.

2. Functional Scope

- Dynamic Route Re-Optimization: Re-calculate multi-stop routes within 10 seconds of traffic or weather anomaly detection.
- Hardware Telematics Ingestion: Integration with Geotab, Samsara, and Omnitracs ELD hardware.
- Driver Mobile Application: Offline-first iOS and Android navigation application with automated proof-of-delivery (e-POD) signature capture.
- Fuel Reduction Target: Must demonstrate measurable 8-12% decrease in aggregate fleet fuel consumption within 6 months.

3. Operational Availability & SLA

- System availability guarantee of 99.98% during operational delivery hours.
- 24/7/365 dedicated tier-3 technical support with maximum 15-minute response for critical dispatch outages.

4. Response Deadline

- Proposals due: December 8, 2026 to robert.taylor@vanguardlogistics.com.
